

## ACS Launches New Wireless Business Plans

On February 11, 2008, after extensive customer wireless usage research, ACS launched new wireless business plans that will better meet the diverse needs of our customers.

"We've already built the state's largest and most advanced wireless network, the only statewide 3G CDMA network. Now, we offer Alaska's best wireless plans for individuals, families, and businesses," said Liane Pelletier, president, CEO and chair.

### Highlights of the new ACS business plans:

- ✓ A rate reduction on many of the most popular plans, including the Alaska Unlimited and Nationwide Unlimited plans.
- ✓ Nationwide Shared Plans that allow multiple phones within a business to share minutes across Alaska, the Lower 49, and Canada.
- ✓ Minute buckets that are carefully aligned with average wireless minute usage, decreasing the occurrence of overage charges for many customers.

- ✓ The addition of free nights (9pm to 6am) and weekends and unlimited mobile to mobile to every ACS wireless plan.
- ✓ Three easy to choose and easy to use feature packs including Unlimited Global Text, The Works, and The Works PLUS.
- ✓ The introduction of the AK FAV™ feature, which allows ACS customers to choose their favorite 907 phone number and all calls placed within the ACS Network to that number will be free.
- ✓ The availability of Handset Insurance to protect customers in cases of stolen, damaged or lost phones.

"At ACS, we believe that wireless service is something you shouldn't have to worry about," said Pelletier. "That's why we've made it easy for our customers to choose a plan that meets their needs, rather than having to tailor their needs to meet the restrictions of a plan."

ACS is currently in the process of reviewing all business wireless accounts, and over the next couple of months will be contacting current customers who can get more value out of their wireless service if they upgrade to a new plan.

### Check out the ACS Advantage

	Minutes	ACS	at&t	ACS Advantage over at&t
<b>AK</b>	Unlimited	\$54.99	No Alaska Plans	<b>Only ACS has Alaska plans</b>
